

ENJOY FASTEST FIBER BROADBAND INTERNET IN RWANDA.

Fiber broadband is high-speed internet connectivity offered through fiber optic infrastructure. It is provisioned through last-mile fiber access to the premises through BSC's end-to-end fiber installations. It involves physical assessment from BSC's nearest Point of Presence to the customer premises, where it is terminated, tested, and commissioned.

More Than Just Internet

Our Fiber Broadband is not just about speed, it's about enhancing your digital lifestyle. With us, you'll enjoy:

Internet Backup
services

VPN capacity
