

**ADVANCED  
PROTECTION (FIREWALL)  
TAILORED TO  
MATCH OUR NEEDS**

### Advanced Firewall Protection

- » **Strong Defense:** Blocks unauthorized access and malware.
- » **Bandwidth Management:** Reduces distractions and optimizes traffic.
- » **Ongoing Support:** Maintains security without an in-house IT team.

### Network Monitoring & Alerts

- » **Real-Time Threat Detection:** Identifies and responds to incidents instantly.
- » **Immediate Notifications:** Alerts your team to critical issues as they occur.
- » **Complete Network Visibility:** Monitors all activities to ensure asset protection.
- » **Event History:** Keeps a detailed log for analysis and accountability.

### Event Logging

- » **Detailed Activity Trail:** Facilitates quick incident analysis.
- » **Performance Optimization:** Enhances network efficiency.
- » **Customizable Retention:** Tailors log storage to your needs.

### Quarterly Vulnerability Assessments

- » **Early Detection:** Identifies and fixes security weaknesses.
- » **Informed Decisions:** Guides your security investments

### Bi-Annual External Penetration Testing

- » **Simulated Attacks:** Reveals and addresses critical vulnerabilities.
- » **Regulatory Compliance:** Ensures your defenses meet industry standards.

### Incident Response & Client Support

- » **Swift Resolution:** Quickly resolves issues to protect your data.

### Weekly Cybersecurity Status Report

- » **Proactive Management:** Provides detailed updates for risk prevention.

### Cyber Advisory Services (Bonus)

- » **Expert Guidance:** Stay ahead with the latest trends, strategies, and compliance support.

**MSS Package Price: 1,478,575 FRW**

**Secure your network with the best value on the market.**
